

COM 1952 : Surgery II

The second clinical clerkship in General Surgery is a required 4-week Core clerkship and can be general or a subspecialty surgery clerkship. Students may select a clerkship from among a list of medical disciplines. This clerkship is designed to provide the student with a basic understanding of Surgery through the integration of didactic knowledge and clinical experiences. Students will receive exposure to a diverse community of patients in both ambulatory and inpatient settings. The curriculum content is delivered to students via the learning management system web site. During the clerkship, students will access the learning website to review learning modules on topics appropriate for a third-year surgery clerkship. A required end of clerkship shelf exam will be administered at the conclusion of this clerkship.
