

Registering for Clerkships

Registering for Clerkships

Although the Clinical Clerkship Coordinator will assign individual clerkships, students must complete onboarding requirements through the CORE Portal *45 days prior to* the designated start date. For OMS-IV students submitting in Site Prospector, it is imperative to submit accurate contact information for the *attending physician filling out the assessment*.

Once submitted, any changes must be made by Clinical Clerkship Coordinators only. Any change requests must be emailed to the assigned CHSU Clinical Clerkship Coordinator at least 90 days in advance of the rotation start.
