

COM 2051 : Specialty: Surgical

The clinical clerkship in a specialty or Sub-Specialty of medicine or surgery or pediatrics is a 4-week clerkship. This clerkship is designed to provide the student with an understanding of a specific area of concentration not otherwise part of a traditional curriculum. Students will receive exposure to a diverse community of patients in either an ambulatory or inpatient setting. The curriculum content will be delivered to students via the learning management system web site. During the clerkship, students will access the learning website to review learning modules on topics appropriate for a fourth-year clerkship.
